SUBJECT INDEX TO VOLUME XVII

(abs) = Abstract. (E) = Editorial. (B. R.) = Book Review

Abscess of the lung (abs), 382
  Pott's (abs), 388
Abstract Department, the (E), 103
Accident from short circuiting of secondary current (abs), 199
Accidents from roentgen apparatus, protection of attendants against (abs), 204
Achondroplasia, 210
  Etiology and pathogenesis of (abs), 136
Acromegaly, juvenile, with congenital aortic stenosis, treated with roentgen rays (abs), 157
Actinomycosis of the lungs (abs), 600
Adenoma, toxic, and exophthalmic goiter (abs), 501
Albers-Schönberg's disease (marble bones), 211
Alimentary tract of the medical student, observations on, 305
Alpha rays of radium, biological and therapeutic action of (abs), 187
American Roentgen Ray Society, announcement of annual meeting, 652
Anencephalus, early diagnosis of (abs), 477
Aneurism of abdominal aorta with gastric symptoms (abs), 136
  Of the renal artery (abs), 673
Angioma of the mouth, 94
Antrum, maxillary, aid to roentgenography of (abs), 141
Aorta, in chronic malaria (abs), 594
  Orthodiagraphic measurements of, in the second oblique diameter (abs), 596
  Thoracic, roentgenogram of (abs), 133
Aortic arch, situs inversus of (abs), 675
Apparatus, a new deep roentgen therapy uniform potential, 324
Appendicitis, the x-ray in (abs), 379
Appendix, cecum and ascending colon, roentgen studies of (abs), 678
  New method of roentgen study of (abs), 365
  Roentgen findings in regard to filling and emptying of (abs), 491
Arthritis, acute, of hip, roentgen changes in (abs), 142
  Value of roentgen examination in differentiating the various types (abs), 591
Arthropathia psoriatica, roentgen examination of (abs), 130
Ascarids and ascaridiasis (abs), 491
Ascaris lumbricoides, roentgen diagnosis of (abs), 134
Asthma, bronchial, deep therapy in (abs), 494
  Bronchial, treatment of, by means of spleen diathermy process (abs), 692
  Report of study of, 356
Atelectasis, postoperative, massive (abs), 136
  Pulmonary (abs), 379
Auditory system, roentgenography of, 660
Avitaminosis, the effect of roentgen rays and ultraviolet light upon the course of (abs), 404

Bacteria, effect of "extra soft" roentgen rays upon (abs), 698
Bacterial growth, effect of beta rays upon (abs), 290
Bactericidal action after roentgen irradiation (abs), 171
Beta rays, effect of, on bacterial growth (abs), 290
Biliary calculus and cyst of pancreas (abs), 593
Biological action of radiation (abs), 169
  Action of roentgen rays of different wave lengths (abs), 181
  And therapeutic action of alpha rays of radium (abs), 187
Biological, basis of the radiation treatment of carcinoma, especially of uterus (abs), 184
  Effect of irradiation (abs), 500
  Effect of radium (abs), 600
  Effect of roentgen rays, problem of (abs), 178
  Effect of roentgen rays upon unicellular organisms (abs), 179
  Effects of roentgen rays upon unicellular organisms — *Paramecium* (abs), 699
  Factor in radiotherapy (abs), 292
Bladder, air in, explanation of how it may cause death (abs), 138
  Calculus of, cystoscopy and roentgenography in (abs), 143
  Deep roentgen treatment of cancer of (abs), 153
  Neoplasms (abs), 391
  Roentgen therapy in treatment of carcinoma of (abs), 689
  Roentgen treatment of inoperable carcinomas of (abs), 688
  Tumors, diagnosis and treatment of (abs), 373
  Tumors, treatment of, with radium emanation seeds (abs), 503
Blood, biochemical changes in, from irradiation of the spleen (abs), 196
  Changes, morphological, following radiological treatment of carcinoma of uterus and breast (abs), 165
  Changes produced by radiotherapy, 84
  Effect of roentgen rays upon (abs), 504
  Irradiation, isolated, effect upon cell (abs), 294
Bone atrophy, acute (abs), 127
  Cyst, solitary, the etiology of (abs), 679
  Diseases in infancy and childhood, 201
  Malignancy from the roentgenological aspect (abs), 598
  Sarcoma, a study of the ossification in (abs), 595
  Syphilis (abs), 135
  Syphilis, congenital, in early infancy (abs), 143
  Tumors in infancy and childhood, 211
  Tumors, medullary, diagnosis and results in radiation treatment of (abs), 602
  Tumors, radiation treatment of (abs), 609
  Tumors, surgical aspect of (abs), 592
Brain, secondary tumors of (abs), 488
  Tumors, pineal shadow as aid to localization, of, 320
Breast cancer, experiences in irradiation of (abs), 157
  Carcinoma, comparison of various technics for irradiation of (abs), 606
  Carcinoma, postoperative roentgen therapy in (abs), 494
  Late results after amputation of, for carcinoma (abs), 393
  Operable carcinoma of, treated by radium and roentgen rays (abs), 609
Brominized oils for roentgenographic use (abs), 696
Bronchiectases of childhood (abs), 139
Bronchiectasis of upper lobe in infant causing displacement of mediastinum (abs), 586
Bronchus, roentgen diagnosis of carcinoma of (abs), 591

Calcaneo-navicular coalition (abs), 682
Calcifications in the arteria interossea volaris (abs), 123
Calcified foci, isolated, in the adult (abs), 138
Calculi of salivary glands and ducts (abs), 676
Calculus of bladder, cystoscopy and roentgenography in (abs), 143

Caldwell Lecture, 1926 (conclusion), 305
Lecture for 1927, announcement of, 572
Calibration as an aid in standardization of technical procedure (abs), 174
Cancer (see also Carcinoma, Malignant disease, and Neoplasms)
And diverticulitis of colon (abs), 141
Cauterization and cautery excision of (abs), 497
Cells, effects of beta rays from radium upon division and growth of (abs), 183
Colloidal lead treatment of (E), 465
Experimental radiation biology of (abs), 177
Glucose injections in (abs), 688
Intra-oral, radon as palliative treatment of (abs), 489
Modern aspects of treatment of (abs), 393
Of the bladder, deep roentgen treatment of (abs), 153
Of the breast, experiences in irradiation of (abs), 157
Of the cervix uteri (abs), 685
Of the cervix uteri during pregnancy, treatment of (abs), 149
Of the cervix uteri, new type applicator for treatment of, 360
Of the cervix, uteri, radiotherapy of, at Radium Institute, Paris, 335
Of the cervix uteri, results and technique of roentgen therapy of (abs), 150
Of the cervix uteri, treatment of, with radium at a distance (abs), 152
Of the cheek, radiation of (abs), 605
Of the esophagus, problems in radiation treatment of, 637
Of the esophagus, treatment of (abs), 131
Of the head, primary and metastatic (abs), 607
Of the lip, radium treatment of 25 cases (abs), 289
Of the lungs, primary (abs), 483
Of the mouth, results of treatment by operation and radiation (abs), 398
Of the prostate, treatment of (abs), 153
Of the rectum, operability of (abs), 370
Of the skin and mouth (abs), 304
Of the skin, treatment of (abs), 155
Of the stomach, roentgenotherapy of (abs), 154
Of the uterus, a case of recurrence after apparent cure by radium (abs), 389
Of the uterus during gestation, treatment by radium and surgery (abs), 389
Of the uterus, factors which affect prognosis in (abs), 601
$100,000 offered for conquest of, 278
Recent advances in treatment of (abs), 391
Shall it be treated by radium or by surgery (abs), 303
The fight against (Vienna letter), 275
Use of glucose injections in treatment of (abs), 686
Carbon arc and flame lamps in medicine and surgery, 342
Carcinoma (see also Cancer, Malignant Disease and Neoplasms)
Experience with roentgen treatment of (abs), 158
Gastric, 275
Gastric, with report of three cases of apparent cure (abs), 385
Genital, radiation treatment of (abs), 492
Glucose injections and roentgen therapy combined in treatment of, 332
Inoperable, of urinary bladder, roentgen treatment of (abs), 688
Mammary, results of postoperative irradiation (abs), 300
Of the bladder, treatment of, with radium emanation seeds (abs), 503
Of the breast, comparison of various technics in radiation treatment of (abs), 606
Of the breast, late results after amputation for (abs), 393
Carcinoma of the breast, operable, treated by radium and roentgen rays (abs), 609
Of the breast, postoperative roentgen therapy in (abs), 494
Of the bronchus, roentgen diagnosis of (abs), 591
Of the cervix uteri, a measuring and adjusting apparatus for roentgen irradiation of (abs), 297
Of the esophagus, an unusual (abs), 587
Of the eyelid, technique of irradiation (abs), 600
Of the gall-bladder, and gallstones (abs), 182
Of the mouth, 90
Of the prostate, study of 1000 cases (abs), 301
Of the rectum and sigmoid (abs), 304
Of the stomach, deformity of air bubble in (abs), 476
Of the stomach, intragastric radium treatment of (abs), 496
Of the uterine cervix, relation of prognosis to histologigical findings in (abs), 688
Of the uterus, biological basis of radiation treatment of (abs), 184
Of the uterus, recurrences after irradiation (abs), 398
Of the uterus, technique of roentgen treatment of (abs), 190
Of urinary bladder, roentgen therapy of (abs), 689
Present status of radiation therapy in (abs), 154
Results of treatment of, with a combination of roentgen rays and injections of dextrose (abs), 495
Carcinomatous metastasis of bones, a case of, 219
Cartilaginous exostoses, multiple, or hereditary deforming chondroplasia, 211
Castration, the problem of temporary roentgen (abs), 395
Catheter, maneuver to facilitate passage through tortuous ureter (abs), 482
Cauda equina, tumors of (abs), 493
Cecum and ascending colon, malposition of (abs), 593
Cell division and irradiation (abs), 293
Division, mitotic, in tissue cultures *in vitro*, effects of *x*-rays upon (abs), 186
Effect upon, of isolated blood irradiation (abs), 294
Permeability under roentgen irradiation (abs), 292
Regeneration in planarians, effects of *x*-rays upon (abs), 601
Cells, living, *in vitro*, effects of radiations upon (abs), 172
Living, quantitative factors in susceptibility of, to external agents (abs), 400
Cervix uteri, cancer of, during pregnancy (abs), 149
Cancer of, new technique of curietherapy of (abs), 389
Cancer of, radium treatment of (abs), 150
Cancer of, results and technique of roentgen therapy of (abs), 150
Cancer of, treatment by radium at a distance (abs), 152
Carcinoma of, relations of prognosis to histological findings in (abs), 688
New type applicator for treatment of cancer of, 360
Radiotherapy of, at Radium Institute, Paris, 335
Snare for electrothermic amputation of, 361
Cheek, cancer of, radiation of (abs), 605
Chemical, colloidal and biological effects of roentgen rays of different wave lengths in relation to ionization effect, 611
Chest, healthy adult, clinical and roentgen-ray findings, in, 507
Lateral view in examination of, 525
Normal, and tuberculosis (E), 564
Chicken tumor, Rous, effect of roentgen rays upon (abs), 298
Cholecystitis with stone producing an atypical shadow (abs), 130
Cholecystography (abs), 125; (abs), 373; (abs), 487; (abs), 677

Cholecystography after oral administration of tetraiodophenolphthalein (abs), 377
And the function of the gall-bladder (abs), 283
By Graham-Cole method compared with older method (abs), 283
By oral method (abs), 129; (abs), 172; (abs), 287; (abs), 381
By oral method without use of capsules, 316
In diabetes mellitus (abs), 682
Its diagnostic significance (abs), 596
Observations on (abs), 476; (abs), 584
Of normal individuals (abs), 479
Operative experience with (abs), 483
(Report of meeting of New England Roentgen Ray Society), 272
Weakly concentrating gall-bladder in relation to (abs), 375
With phenoltetraiodophthalein (abs), 479
Cholelithiasis resembling renal disease, a clinical type of (abs), 674
Cholesteatoma causing destructive process in temporal bone (abs), 126
Cholesterin, irradiated, in the therapy of rickets (abs), 502
Chondroma of the lung, primary (abs), 676
Of the vertebrae, 452
Chondromatosis, capsular, roentgenological characteristics of (abs), 679
Chronaxia, use of lamps with two electrodes in studying (abs), 691
Circulatory disturbances, high frequency currents in treatment of (abs), 401
Clavicle, technique for roentgen diagnosis of fracture of (abs), 287
Clinicopathological and roentgen laboratories in hospitals (abs), 170
Coccidioidal granuloma in childhood, 212
Colitis, mucous, a roentgenological sign of, 416
Roentgen diagnosis of, 405
Colloidal lead treatment of cancer (E), 465
State of the cell content of protozoa, effect upon it of radium radiation (abs), 167
State of the cell content of protozoa, effect upon it of roentgen rays (abs), 167
Colon, cancer and diverticulitis of (abs), 141
Large movements of, are pathological (abs), 180
Right, roentgen diagnosis of adhesions of (abs), 594
Roentgen and anatomical study of, in 150 patients with pulmonary tuberculosis, 253
Roentgenologic study of (abs), 683
Studies; the roentgen diagnosis of colitis, 405
The irritable, 405
Colonic irrigations used in subacute and chronic arthritis, roentgenologic study of, 27
Conjunctiva, trachomatous, results of secondary irradiation of (abs), 607
"Contrastol," a new medium for delineation of cavities (abs), 124
Coolidge tubes, radiator, use and abuse of (abs), 182
Coronary artery of man and mammals, anatomical-roentgenological study of (abs), 184
Cosmic radioactivity (abs), 296
Coxa valga due to epiphyseal displacement (abs), 142
Vara, 213
Cranium, senile changes in (abs), 587
Cretinism, 211
Current, pulsating or constant high tension direct in roentgen therapy (abs), 502
Cutaneous toleration of roentgen rays, variations in (abs), 686
Cysticercus cellulosae, roentgen diagnosis of (abs), 134
Cystograms, lateral (abs), 588
Czechoslovakian Republic, fifth convention of the Union of German Roentgenologists and Radiologists of, 568

Dangers, roentgen-rays, studies in methods of protection from (abs), 197
Dental infection, periapical, pathology and roentgen diagnosis of (abs), 130
Roentgenograms, method of mounting (abs), 400
Roentgenography for detecting periapical infection (abs), 377
Dentistry, roentgen examination in (abs), 380
Department, roentgen, planning of (abs), 692
Dermatitis, roentgen, prognosis in (dermatological clinic) (abs), 393
Dermatological clinic (abs), 393
Irradiations, ray hardness, filtration and effects in (abs), 298
Dermoid cyst, roentgenological demonstration of, 51
Descriptive Atlas of Visceral Radiograms, by A. P. Bertwistle (B.R.), 364
Dessauer, heat-point hypothesis of, comments on (abs), 691
Dessauer's hypothesis of heat-points (abs), 197
Diabetic tuberculosis, 625
Diaphragm, right-sided elevation of (abs), 580
Saucer deformity of, 630
Diaphragmatic hernia and relaxation, differential diagnosis between (abs), 488
Hernia of the right lobe of the liver (abs), 597
Diathermy with Special Reference to Pneumonia, by Harry Eaton Stewart (B.R.), 280
Diffraction patterns, x-ray, from plant fibers (abs), 161
Digitalis, effect of radiation upon (abs), 177
Diphtheria convalescents and carriers, shortening quarantine period for (abs), 610
Direct current apparatus for roentgen diagnosis and therapy (abs), 187
Diverticulitis and cancer of colon (abs), 141
Diverticulum, gastric, a case of (abs), 482
Of the esophagus associated with duodenal ulcer (abs), 585
Of the jejunum (abs), 599
Dosage in R units, comparison of French and German (abs), 293
Measurements, roentgen ray, apparatus for making, 667
Of roentgen rays, problem and standardization of (abs), 198
Of roentgen rays, unit of (abs), 494
Problem of roentgen (abs), 190
Dose distribution in respect to time in irradiation of malignant tumors (abs), 291
Effect upon, of variations in line voltage (abs), 702
Erythema in roentgen units (abs), 294
Measurement of roentgen (abs), 294
Measurement, physical methods of (abs), 693
Of roentgen rays required to produce clinical] erythema, 230
Of x-rays to tumor, a practical method of applying without injury to the skin (abs), 162
"Rad," determination of, for sarcoma cells (abs), 164
Roentgen-ray skin, calculation of, 277
Skin erythema, with a combination of two types of radiation, 621
Time factor in (abs), 295
Doses, erythema, in absolute units (abs), 196
Dosimeter, direct reading, for roentgen rays (abs), 188
Siemens, a portable support for the water phantom of (abs), 394
Dosimetry in roentgen therapy (abs), 290; (E), 104
Duodenal and gastric ulcers (abs), 583
And gastric ulcers, coincident (abs), 146
Ileus, chronic (abs), 378
Tube and Its Possibilities, by Max Einhorn (B.R.), 280
Ulcer, roentgen diagnosis of (abs), 485
Duodenum as a mixing apparatus (abs), 187
Obstructions in (abs), 584

Duodenum, roentgenology of, in conditions other than ulcer (abs), 366

Ear, epithelioma of, radium in treatment of (abs), 686
Echinococcus cyst, roentgen diagnosis of (abs), 134
Of the lungs (abs), 599
Roentgen diagnosis of (abs), 379
Eczema, roentgen therapy of (abs), 157
Education, medical, rôle of roentgenology in, 305
Embryo and embryonal tissue, analysis of roentgen-ray effects upon (abs), 176
Problem of roentgen injury of (abs), 505
Temporary sterilization and injury to (abs), 506
Emphysema, obstructive, 432
Enchondroma in childhood, 211
Endocrine disease, roentgen therapy and organotherapy in (abs), 168
Glands, reciprocal action during climacterium (abs), 168
Enterolith without occlusion (abs), 387
Enzymes, effect of radiations upon (abs), 174
Epiphyseal disease in the hands, symmetrical (abs), 591
Displacement causing coxa valga (abs), 142
Epithelioma of the ear, radium in treatment of (abs,) 686
Epitheliomas of skin, roentgen treatment of by Guarini's modification of Ghilarducci's method (abs), 288
Epithelium, germinal, in irradiated testes of rats (abs), 696
Epulis, 96
Ergebnisse der Medizinischen Strahlenforschung, by H. Holfelder (B.R.), 473
Erythema, clinical, roentgen-ray doses required to produce, 230
Dose in roentgen units (abs), 294
Doses in absolute units (abs), 196
Of the human skin, studies in (abs), 198
Erythrocytes, effects of roentgen rays upon (abs), 701
Esophageal diverticulum associated with duodenal ulcer (abs), 585
Esophagus, an unusual carcinoma of (abs), 587
And trachea, congenital deformity of (abs), 586
Foreign bodies in, 44
Idiopathic dilatation of (abs), 599
Lesions of, 274
Problems in radiation treatment of cancer of (abs), 637
Treatment of cancer of (abs), 131
Ethmoid and superior maxillary sinuses, radium surgery of malignant tumors of (abs), 601
Exophthalmic goiter (see Goiter, exophthalmic)
Exposure timers, reliability of timing in (abs), 169
Extremities, roentgen technique for (abs), 193
Eye, method for localization of foreign bodies in, 662
Eyelid, technique of irradiation of carcinomas of (abs), 600

Faculty of Medicine of Paris, opening lectures of course in medical physics at the (abs), 298
Feet, unusual congenital deformity of (abs), 582
Femoral osteochondritis of adolescents (abs), 671
Fetal death, intra-uterine, roentgen signs of (abs), 682
Fibrolipoma, subpleural (abs), 480
Fibroma of the mouth, 96
Fibromyoma of uterus, myomectomy, hysterectomy and radiotherapy in (abs), 687
Of uterus, roentgen therapy with one treatment (abs), 155
Filtration, efficient and economical (abs), 171
Fingers and toes, symmetrical bilateral malformations of, in a schizophrenic (abs), 591
Fistula, gallbladder-duodenal (abs), 124
Inguinal, two cases, one communicating with sigmoid and the other with bladder (abs), 583
Fixing solution, how to extract silver from (abs), 186
Fluid surfaces, shape of, in roentgenograms of nasal sinuses (abs), 587
Focus of roentgen tube, a simple method for determining (abs), 163
Foreign bodies in the air and food passages (abs), 388
Bodies in the esophagus, roentgen diagnosis of, 44
Body in digestive tract of infant (abs), 584
Fracture, age of, from roentgenogram (abs), 132

Gall-bladder, a model to simulate mechanism of emptying of (abs), 295
Disease, roentgenographic diagnosis of (abs), 678
Duodenal fistula in the roentgenogram (abs), 124
Function of, as determined by cholecystography (abs), 283
Human, behavior of, during fasting and after taking food (abs), 690
Human, sex differences in contraction of (abs), 672
Mechanism of (abs), 299
Normal and pathological pictures of (abs), 369
Roentgenographic estimation of concentration of tetraiodophenolphthalein in, 443
Weakly concentrating, in relation to cholecystography (abs), 375
Gall tract disease, diagnosis and treatment (abs), 381
Gallstones and gall-bladder carcinoma (abs), 182
Gas in the gastrointestinal tract, means for its elimination for purposes of roentgen examination (abs), 166
Gastric and duodenal ulcers (abs), 583
Canal, roentgen studies of (abs), 695
Carcinoma with report of three cases of apparent cure (abs), 385
Diverticulum, a case of (abs), 482
Gastrointestinal infection; its roentgen manifestations (abs), 371
Lesions, diagnosis of, 274
Perforations, roentgen diagnosis of (abs), 137
Gastroscopic removal of radium capsules from stomach, 635
Gaucher's disease, skeletal changes in (abs), 677
Genital carcinoma, radiation treatment of (abs), 492
German Roentgen Society, invitation circular to eighteenth convention of, 357
Germinal gland irradiation and offspring (abs), 700
Gliomas of the brain, calcification of (abs), 146
Glucose injections as aid to roentgen therapy of carcinoma, 332
Injections to intensify action of irradiation (abs), 686
Injections to intensify effects of irradiation in carcinoma (abs), 688
Solution, intravenous injections of, to increase effect of irradiation on tumors (abs), 495
Goiter, a resumé (abs), 302
Goiter, exophthalmic and toxic adenoma (abs), 501
Exophthalmic in childhood (abs), 501
Exophthalmic, roentgen treatment of (abs), 497
Exophthalmic, treatment of (abs), 398
Surgical treatment of (abs), 188; (abs), 194
Toxic, a system of control and treatment in (abs), 303
"Grenz" (infra-roentgen) ray therapy, 645
Gynecological disease, benign, undesirable effects of roentgen treatment of (abs), 689

Hair hypertrophy after roentgen irradiation (abs), 499
Harnorgane im Röntgenbild, by Eugen Joseph (B.R.), 121
Head, cancer of, primary and metastatic (abs), 607
Headache, roentgen-ray findings in (abs), 680
Heart, armored (abs), 374
Foreign body in auricular wall of (ab), 486
Muscle, calcification of (abs), 590
Pulsations, roentgen study of (abs), 383

Heart, roentgenologic examination of (abs), 590
Simple method for roentgenological estimation of size (abs), 176
Teleroentgenographic examination of, and its vascular pedicle (abs), 182
The vascular pedicle of (abs), 180
Heat points, Dessauer's hypothesis of (abs), 197
Helminthes, roentgen diagnosis of, in man (abs), 134
Hemophilia, 213
Hemophilics, roentgen examination of joints of (abs), 371
Hemorrhage, functional uterine, treatment of (abs), 496
Radium and, 247
Uncontrollable adolescent, treatment of, with radium, 461
Hemorrhagic infarct of the lung, 554
Metropathies and myomas, irradiation of (abs), 394
Hernia and diaphragmatic relaxation, differential diagnosis between (abs), 488
Diaphragmatic (abs), 478
Into lesser peritoneal cavity (abs), 478
Paracecal and intersigmoid (abs), 478
Paraduodenal (abs), 477
Postoperative (abs), 478
Roentgenologic aspects of various types of (abs), 477
Hip, lateral roentgenography of (abs), 132
Histological changes following roentgen therapy (abs), 297
Hodgkin's disease and lymphosarcoma, rationale of radiotherapy in, 232
Disease of the orbit, 642
Sarcoma, 82
Treatment of, 77
With special reference to irradiation treatment (abs), 684
Horseshoe kidney, 456
Diagnosis by roentgen examination (abs), 596
Importance of pre-operative diagnosis (abs), 587
Hunger contractions in man, roentgen-ray observations of (abs), 198
Pain, 222
Hydatid cyst and penetration of roentgenotherapy (abs), 390
Hypernephroma, a study of some cases of (abs), 123
Of kidney, calcified (abs), 580
Hysterosalpinography, combined with pelvic pneumoperitoneum (abs), 677

Ileum and jejunum, normal, roentgenology of (abs), 286
Displacement of last loop of, by pelvic tumors (abs), 383
Ileus, chronic duodenal (abs), 378
Immunity not produced by inoculating irradiated tumor tissue (abs), 165
Indexing system for cataloguing roentgenograms (abs), 698
Infarct, hemorrhagic, of lung, 554
Of lung in the roentgenogram (abs), 585
Infection, periapical, dental roentgenography for detecting (abs), 377
Inflammations, acute, roentgen irradiation of (abs), 503
Inflammatory lesions, roentgen treatment of (abs), 176
Injuries, delayed, caused by roentgenization of the human body during adolescence (abs), 609
Roentgen, 570
Roentgen, prevention and treatment (abs), 295
Injury to offspring as result of roentgen treatment during pregnancy (abs), 698
Intensifying screens, some properties of, 115
Distribution of roentgen rays, in an irradiated medium (abs), 292
Distribution of roentgen rays in human body (abs), 401
Interrupters for induction coils (abs), 185
Intestinal obstruction, a valuable roentgenographic aid in diagnosis of, 542
Intestine, roentgen diagnosis of gas cysts of (abs), 133
Intrathoracic new growths, diagnosis and treatment of (abs), 135
Intrauterine use of radium, two deaths from (abs), 148
Intussusception, diagnosed roentgenologically (abs), 675
Iodipin (see also Lipiodol)
